

OptiMaint

Apisoft International attaches great value to education and training.

All the versions of OptiMaint have a Help Menu (?) available with advices, tool and user guide to guide your discovery.

Thanks to its educational approach and quick understanding, OptiMaint is especially adapted and recommended for teaching.

With more than 850 customers and thousands of users in the world, OptiMaint is known for its powerful functionalities but also its simplicity and user-friendliness.

For your students, managing OptiMaint, and more generally a CMMS tool, is an additional asset for their future job search.

Today, over 130 schools use our software's Education version.
